In € thousands	Q1 2008	Q1 2009
Revenues	23,329	22,102

The first quarter of 2009 was marked by a tough economic environment which caused clients to postpone their purchasing decisions. Against this background, Audika group generated total revenues of € 22.1 million in the first quarter of 2009, down 5.3% on the first quarter of 2008. On a like-for-like basis, revenues fell 11.0%.

Revenues generated in Italy are increasing and accounted for 8% of the group's activity over the period, in particular thanks to the contribution of newly-opened or acquired centers.

Audika group remains prudent, but expects a gradual improvement in business over the rest of the year as it begins to reap the benefits of its new advertising campaign. The group will also gain from the consolidation of the centers acquired or opened since the beginning of 2009 (8 in France and 20 in Italy) and a more favorable basis for comparison in the second half of the year.

The group confirms its announced priorities for 2009, namely maintaining a high level of profitability and continuing to expand its networks in France and Italy.

Audika group will publish its first-half revenues on July 20, 2009 after market close.
